Display Vehicles

Please keep in mind that all display cars **must** fit entirely inside exhibitor booth. All vehicles must have the gas cap taped off. **Please have hoods up and batteries disconnected by 8pm on Saturday for inspection.** Failure to comply will result in disqualification and removal from show.

Important Rules and Requirements

Vehicle Requirements

Under **no** circumstances may display vehicles be placed in front of any fire or Public entrance and exit doors. Special attention should be given to keeping These public doors free of obstruction by any Show vehicles. The same holds true

For the erection of displays, staging, walls, turntables, signs, etc.

Battery Cable - All Show vehicles must have the positive battery cable Disconnected and taped using UL approved plastic electrical tape.

Gas Cap Requirements - If the gas cap door can be opened from outside your Vehicle, the vehicle must have a locking gas cap. If the gas cap door must be Unlocked from inside your car, then a locking gas cap is not necessary but the Standard inside gas cap must be taped.

AC/DC Converters - Cars using

AC/DC converters must have the security system fuse and horn

Disconnected to prevent the public from setting off vehicle alarms. *A Fire Marshal Will be on duty the Show.*

Aisles for Emergency Purposes

The Fire Department requires that all exhibitors leave three feet (3') of space on Every public aisle and two feet (2') of space on any border of their exhibit Which adjoins another display area. This will allow a four-foot (4') emergency aisle running between each space. In addition, manufacturer exhibits must be set back fifteen feet (15') directly in front of all

Emergency exit doors and five feet (5') from all columns. If the column does not Contain emergency equipment; vehicles may be placed within this space.

Fire Regulations

Exhibitors must comply with all federal, state, and local fire codes which apply to places of public assembly. All curtains, buntings, draping, Etc., of any kind must be flameproof. Special care should be taken not to block or

obstruct any fire hose or fire extinguisher cabinets, fire pull boxes, or Entrances and exits within the
